Congenital (inner) ear malformation –morphology, function and surgical intervention

Paper Reference	Paper Title	Author
P001	Cochlear implantation in children with congenital inner ear malformations - Our experience	dr Neeraj Suri
P002	Auditory effects of tympanoplastic surgery with titanium prostheses (PORP or TORP) in patients with congenital middle ear defects	Md, Phd Lukasz Plichta
P004	cochlear implantation in inner ear malformations; surgical & audiological outcome at King Fahad University Hospital,SA.	Professor Layla Telmesani
P005	Cochlear implantation in inner ear malformations. Local experience and auditory outcomes.	Mr Gonzalo Ortega Flores

Endolymphatic sac function and surgery

Paper Reference	Paper Title	Author
P006	Endolymphatic sac tumor in patient with von Hippel–Lindau disease: surgical resection with hearing preservation via retrolabyrinthine approach - case report.	Inga Magda

Endoscopic Ear Surgery

Paper Reference	Paper Title	Author
P010	Total endoscopic ossiculoplasty, what are the pons /cons ?	Mr Abdelrahman Ezzat Ibrahim
P011	DIFFERENT ENDOSCOPIC APPROACH FOR CONSERVATIVE SURGICAL MANAGEMENT OF ADULT CHOLESTEATOMA	Mr Abdelrahman Ezzat Ibrahim
P012	Clinical efficacy of endoscopic surgery versus microscopic surgery for tympanosclerosis	Dr. Yibo Zhang

Genetics in Otology

Paper Reference	Paper Title	Author
P016	Aspects of hereditary Cholesteatoma	Md, Phd Åsa Bonnard
P017	GWAS reveals association of TUB1AC and DIP2B to sudden deafness and vestibular neuritis in Finland	Argyro Bizaki-Vallaskangas
P017	Analysis of Trio-based Whole Exome Sequencing in 23 South Chinese families with hereditary hearing impairment	Dr. Ying Lin

Head and Neck Paragangliomas

Paper Reference	Paper Title	Author
P020	Surgical Management of Tympanomastoid Paraganglioma:10 Years Experience	Asso. Prof Kanu Saha
P021	Bilateral Tympanic Paraganglioma-Report of A Rare Case	Asso. Prof Kanu Saha

Implants in Otology (cochlear implants, middle ear implants, bone conduction devices)

Paper Reference	Paper Title	Author
P025	Vestibular Implant Electrode Stability over time	Dr. Elke Loos
P026	Investigation of the Skull Bone Sound Waves under Bone Conduction In-vivo	Prof. Dr. Christof Roosli
P027	A hybrid FEM and experimental study on the relation between temporal bone 3D motion and intracochlear pressure under bone conduction	Prof. Dr. Christof Roosli
P028	Performance with a new bone conduction implant audio processor in patients with single-sided deafness	Prof. Dr. Martin Kompis

P029	Evaluation of a super powerful Bone-Anchored Hearing System and its users: A Retrospective Study
P030	Insight into implant-associated biological processes and the microbiome of hearing implants
P040	Using a Bone Conduction Hearing Device as a Tactile Aid
P041	COCHLEAR FRACTURE: AN UNUSUAL COMPLICATION IN COCHLEAR IMPLANTATION
P042	Modification of skin incision for Baha® Attract System Implantations
P043	3-year clinical outcomes of minimally invasive ponto surgery for inserting bone-anchored hearing implants
P044	Single-stage bone-anchored hearing implant surgery in children: a prospective comparative research
P045	Living diversity: Clinical focus on multilingual patients with cochlear implants

Drs. Emma Teunissen
 PhD Martin L Johansson
 Prof. Dr. Martin Kompis
 Tajaddin Muradov
 Phd Aleksandra Ślęzak
 Drs. Emma Teunissen
 Drs. Emma Teunissen
 Susann Thyson

Intraoperative monitoring of cochlear and facial nerve function

Paper Reference	Paper Title	Author
P046	Living diversity: Clinical focus on multilingual patients with cochlear implants	Susann Thyson
P047	SmartNav in cochlear implantation under local anesthesia	Assoc.prof. Jan Boucek
P048	Decrease in eCAP thresholds between intra- and postoperative assessments is associated with changes in the CI-induced intracochlear electric field	Phd Ville Sivonen

Microscope, Endoscope or Exoscope

Paper Reference	Paper Title	Author
P051	Glomus tympanicum: how i do it	Professor Ahmed Allam

Middle and inner ear drug delivery

Paper Reference	Paper Title	Author
P055	TOPICAL VERSUS INJECTABLE LIDOCAINE FOR MYRINGOTOMY WITH INSTALATION OF VENTILATION TUBE	Jakov Ajduk
P056	Ear Cooling as a future Hearing Protecting Therapy? Appraisal of the Current Literature and Findings of a Feasibility Study	Dr. Med. Dominik Péus
P057	Intratympanic injections: What is there beyond steroids and aminoglycosides? A literature review.	Dr Zacharias Kalentakis
P058	Adaptive Injectable Hydrogel Promotes the Repair of Infected Middle Ear-Mastoid Bone Defects by Regulating Tissue Microenvironment	Yiwen Chen

Otology and Evidenced Based Medicine

Paper Reference	Paper Title	Author
P061	The Role of CGRP-Based Therapies in Managing Vestibular Migraine: A Retrospective Study	Dr Vishal Pawar
P062	Long Term Sequela of Paediatric Acute Mastoiditis Threatened with Mastoidectomy	Dr. Matija Švagan
P063	Acquired aural atresia after an ear piercing: a case report	Dr. Gillian Barzaga
P065	Exploring Approaches to Vertigo in Research: A Bibliometric Study	Dr Melanie Grace Cruz
P066	Global Prevalence of Chronic Suppurative Otitis Media: A Modelling Study	Anjola Onifade
P067	EVALUATION OF HEARING LOSS IN PATIENTS WITH OSAS	Dr Zacharias Kalentakis
P068	Prelinguistic Development in Children with Cochlear Implants: A Retrospective Chart Review	Maika Werminghaus
P069	Reduction of Otologic Symptoms Following Biologic Therapy in Patients with Asthma and Chronic Rhinosinusitis with Nasal Polyps	MD Anna Suikkila
P070	Post-inflammatory aural atresia in a pediatric female	Dr. Gillian Barzaga
P071	Approaches to Vertigo in Research: A Bibliometric Study	Dr Melanie Grace Cruz
P072	A research project to understand vaping habits and the perception of vaping in the MSE trusts.	Miss Shruti Darak

Squamous Cell Carcinoma of the ear

Paper Reference	Paper Title	Author
P073	Jugular Foramen Syndrome secondary to Temporal Bone Squamous Cell Carcinoma with Skull Base Osteomyelitis	Aleli Francis Rivera-Onia
P074	Jugular Foramen Syndrome secondary to Temporal Bone Squamous Cell Carcinoma with Skull Base Osteomyelitis	Aleli Francis Rivera-Onia

State of the art imaging of the middle and inner ear

Paper Reference	Paper Title	Author
P078	Middle Ear Implant Vibration Measurements using OCT Vibrometry	MD. PhD. Mick Metselaar
P079	Histology of the human cochlea using fluorescent confocal microscopy	Professor Alexandre Karkas
P080	The Role of CT scan in Hearing Preservation for Cochlear Fistula in Cholesteatoma: Report of Two Cases	Asso. Prof Kanu Saha
P081	Middle Ear Implant Vibration Measurements using OCT Vibrometry	MSc Harry de Vries
P082	Tympanic Membrane Segmentation using OCT	MSc Harry De Vries
P083	Comparison of CT with and without artefact removal algorithms and CBCT in post operative CI imaging; a temporal bone study	Md, Phd Matti Iso-mustajärvi

Surgery for chronic otitis media

Paper Reference	Paper Title	Author
P088	Differential diagnosis of Retroauricular Abscess in a Pediatric Patient: A case report	MD Dragana Simic
P089	Extended Modified Bondy Mastoidectomy - a Novel Technique for Hearing Preservation in Cholesteatoma Surgery	Asso. Prof Kanu Saha
